

Dear Decision-maker,

For over a decade, SES has provided strategic research, executive counsel and innovative solutions to Canada's leading decision-makers. As part of a process of tracking public opinion and business trends, the firm launched *The SES Web Entrepreneurship Survey* in early 1999.

Having timely and accurate data on emerging on-line business trends is critical to corporate and government decision-makers involved in the Internet. Conducted annually by telephone, *The Web Entrepreneurship Survey* identifies opportunities as well as assists subscribers in understanding the perceptions of small businesses as they relate to commercialization of the Internet.

With a final sample target of 1,000 businesses, *The SES Web Entrepreneurship Survey* is among Canada's most significant research benchmarks on small businesses and the Internet. The margin of accuracy of the survey is  $\pm 3.1\%$ , 19 times out of 20. Validation of the profile of respondents and of small businesses across Canada, indicate that the results are a fair representation of opinion for the target group.

If you have any questions about your data table, please do not hesitate to contact me directly.

A handwritten signature in blue ink that reads "Nanos".
