# Liberal recognition of Quebec as a Nation an albatross outside of Quebec

## SES Research NationState Poll

### Methodology

Between November 5th and November 9th, 2006, SES Research conducted a random telephone survey of 1,002 Canadians 18 years and older.

The aggregate survey results are accurate  $\pm 3.1\%$ , 19 times out of 20. Margins of accuracy are wider for subgroup samples. Readers should note that the data was weighted for gender and age to match the latest Canadian census results. Results should be considered representative of the Canadian population. Results may not add up to 100% due to rounding.

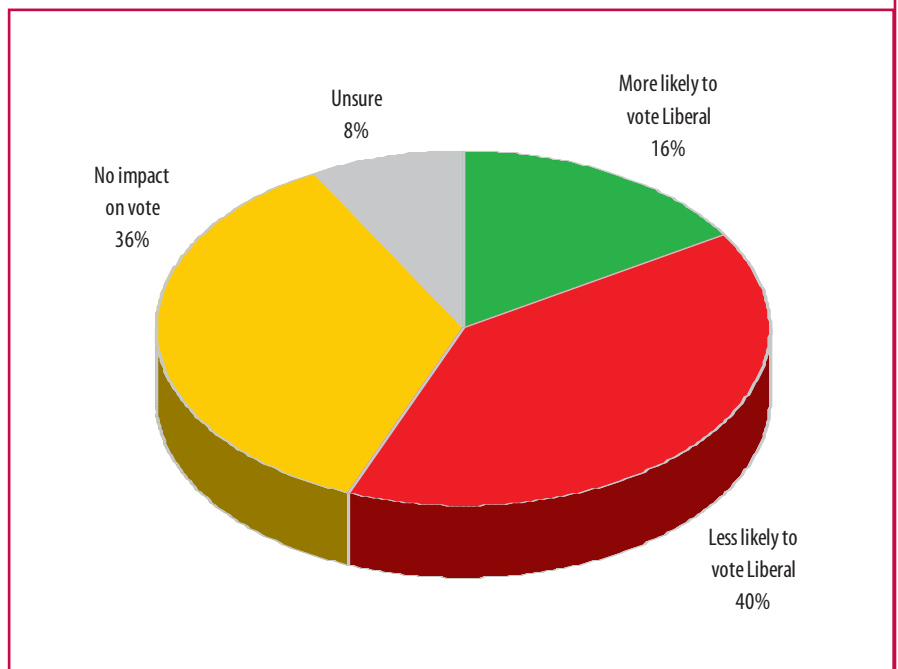

The initiative was part of the SES NationState Omnibus Survey and was registered with the Marketing Research and Intelligence Association of which SES is a Gold Seal Corporate member.
