Perceptions on Peacekeeping

SES/Osprey Media Poll

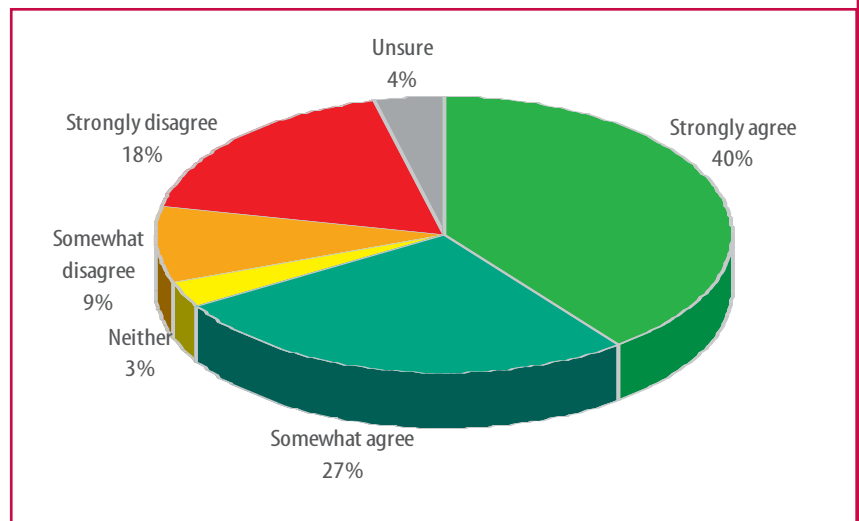

Methodology

Between April 11th and April 13th, 2006, SES Research conducted a random telephone survey of 500 Ontarians 18 years and older.

The aggregate survey results are accurate $\pm 4.5\%$, 19 times out of 20. Margins of accuracy are wider for subgroup samples. Readers should note that the data was weighted for gender and age to match the 2001 Canadian census results for Ontario. Results should be considered representative of the Ontario population. Results may not add up to 100% due to rounding.

The initiative was part of the monthly SES Ontario Omnibus Survey and was registered with the Marketing Research and Intelligence Association of which SES is a member.

Question: I'd like to ask your opinion on the role of Canadian soldiers abroad. I'm going to read you two statements and I'd like you to tell me whether you strongly agree, somewhat agree, neither agree nor disagree, somewhat disagree or strongly disagree with each of them.
Canadian soldiers should be deployed for peacekeeping missions to enforce and supervise a truce between hostile communities.
